PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience engineering procurement solutions using Java 8+, Spring Boot, and Angular. **Impact:** Delivered **23% faster order processing** via Kafka async pipelines, a **27% reduction** in production incident and maintained **95% unit test coverage**. Awarded three-fold recognition for technical excellence at Intellect Design Arena for optimizing API onboarding and microservices architecture.

TECHNICAL SKILLS

Languages: Java 8+, SQL, JavaScript, TypeScript, HTML5, CSS3

Backend Frameworks: Spring Boot, Spring Security, Spring MVC, Hibernate/JPA, Node.js, Express

Architecture & Messaging: Microservices Architecture, RESTful APIs, Apache Kafka, Async Processing, JWT

Frontend Frameworks: Angular 10+, React.js, Angular Services & Routing, Component-Driven Design

Databases & Storage: PostgreSQL, MongoDB, Database Schema Design, Query Optimization, Index Tuning

DevOps & Software Tools: Docker, Jenkins (CI/CD), Git, Swagger/OpenAPI, ELK Stack, JasperReports, Jira

Core Engineering: Object-Oriented Programming, SOLID Principles, Test-Driven Development (JUnit/Mockito), Design Patterns, Data Structures & Algorithms, Agile/Scrum

EXPERIENCE

Associate Consultant — Java Full-Stack Developer | Intellect Design Arena Ltd

Aug 2024 – Present

Noida, India / Tech: Java 8+, Spring Boot, PostgreSQL, Angular, Kafka, Swagger, ELK, CI/CD

- Architected and delivered RESTful APIs and Microservices for iCPX/iGPX, an enterprise procurement platform used by corporate and government clients across multiple countries.
- Improved order processing throughput by **20%** by converting synchronous workflows into asynchronous processing pipelines.
- Reduced incident recurrence by **25%** through structured root cause analysis, defect isolation, and backend hardening.
- Built Angular frontend modules integrated with Spring Boot APIs to streamline procurement workflows and reduce manual navigation steps.
- Reduced developer onboarding time by **30%** through comprehensive Swagger/OpenAPI documentation and clearer API contracts.
- Achieved **95% unit test coverage** using TDD practices, lowering regression defects and improving release confidence.
- Reviewed pull requests and mentored junior developers to improve code quality, design consistency, and delivery standards.

May 2023 – Jun 2023

Web Development Intern | Esyatech Solutions Pvt. Ltd.

Lucknow, India / Tech: React.js, REST APIs

- Refactored legacy Zixana ERP user interfaces into modular React.js views, streamlining core workflows to cut user onboarding training timelines **20%**.
- Coordinated within a **5-person Agile team** to map React components to backend REST APIs, accelerating feature deployment timelines by **18%**.

PROJECTS

Full-Stack E-Commerce Platform | Personal Project

Oct 2023 – Apr 2024

Technologies Used: React.js, Node.js, Express, MongoDB, JWT, Stripe API, Multer

- Engineered a full-stack commercial architecture supporting **100+** dynamic product listings, secure session management, and automated media upload processing.
- Boosted application responsiveness **30%** implementing MongoDB schema tuning, tokenized JWT authorization guards, and automated Stripe checkout systems.

AWARDS & RECOGNITION

- Honored with the corporate **“SPOT” Award** for engineering excellence, driving rapid backend defect mitigation to hit critical enterprise delivery milestones.
- Recognized as a **two-time recipient of the “You Did It” Award** for championing code quality via peer reviews and mentoring junior engineering tracks.

PUBLICATION

Website Performance Metrics – Asian Journal of Research in Computer Science, Apr 2024

- Analyzed website performance factors and proposed optimization strategies for throughput, frontend load, and measurement frameworks.

EDUCATION

Bachelor of Technology, Computer Science & Engineering

Sep 2020 – Jun 2024

Amity University, Lucknow **CGPA: 8.35/10**
